### How a Druggist Sold Pure Liquor.

A story is told of a druggist in Chicago, to this effect. He had the reputation of keeping most elegant brandy, imported exmessly for himself all the way from France. Of course he was supposed to keep it solely for family purposes, and for "nothin' else. There, was however, a cask kept on tap in a back room, and it was really astonishing what a lot of favorites went into the back toom daily, and how much sickness there was in the city while that eask, like the "widow's cruse." was always full. One day -a snapping cold day-about lunch time, several thirsty heads of families might lave been seen in that back-room anxiously waiting for the druggist, who was dealing out houses in the front shop, to come in and draw some of the genuine, unadulterated Cognac. Druggist con es in, turns the tap with a knowing wink and a grin, but stands petrified to find that the thing dou't run -Something is the matter with the fancet, gentlemen : guess I'll take it off." Druggist takes it off, but although the orifice is thus enlarged, the thing still won't run .-Druggist is sure that the cask is full. His customers propose to take out the hung and see what the matter is. Bung is taken out and cask turned to the light, when the horrifying fact presents itself to the naked eye that this unadulterated brandy, imported from France, is frozen solid. Singular Affair at Bethlehem. On Wednesday afternoon a report spread through town that a citizen of Bethlehem had been found dead in his bed under very mysterious en cumstances, and Coroner Bruner was sent for in great haste. The particulars of this singular death are as follows: -It appears that Wm Woehler, an old citizen of Bethlehem, who had been in very ill health for some time past, took medicine on Tuesday last, which seemed to relieve him very much, and in the evening the whole family, consisting of himself, wife and an adopted daughter, retired to rest about 9 o'clock, after Mrs. W. had filled up the coal stove, which stood in an adjoining room, and thrown open the door leading into that apartment. The woman and her daughter were worn out with waiting upon he sick husband and father, and soon fell into a sleep, from which, singular to say, they never awoke until Wednesday evening, having slept something over twenty-four hours.

The rooms in which the family live are small and the ceilings low, and the gas which proved fatal to Mr. W. caused the stuper to his wife and daughter. The report of this sad occurrence shocked the whole community Easton (Pa) Times.

The ostensible cause of the visit is that he may put into its place the last stone of the Victoria Bridge over the St. Lawrence, at Montreal, belonging to and forming part of the Grand Trunk Railway of Canada. This was the last and crowning labor of the late Robert Stephenson. It is nearly two miles long: the masonry is about \$,000.000 cubic feet, weighing 220,000 tons; each block of stone weighs from seven to ten tons; the weight of iron in the tubes is 10,400 tons, and the whole cost was £1,250,000. DISORGANIZATION AND DISUNION. SPEECH OF

#### HON. EDWARD M'PHERSON. OF PENNSYLVANIA,

In the House of Representatives of the U. States, Feb. 24, 1860. [Concluded from last week.]

DEMOCRATIC DISUNIONISTS AND THEIR

THREATS.
Why, if there be meaning in language and sincerity in men, the master spirits of the Democratic party in Congress are covened with the scrofulous taint of disunion. There yet ring in our ears the echoes of the most unexampled declamation, every note of which grates harshly upon our

The gentleman from South Carolina, [Mr. KETT, I in a recent speech, said:

"Should the Republican party succeed in the next presidential election, my advice to the South is to snap the cords of the Union at once and forever." And the honorable member was one of

the most active in efforts to effect the gleetion of a Democratic Speaker, and supported every candidate named on that side, except that Northen Democrat in whose hands the flag went down in defeat.

The gentleman from Mississippi [Mr LAMAR | said that when the spirit of the Constitution (of course as he understood it) was no longer observed on this floor, he would be against the Government, would raise the banner of secession, and would fight under it as long as the blood flows and ebbs in his veius. His colleague, former Governor of his State, [Mr. McRAE,] declared, that in case

of the election of a Republican President,

his counsel to the people of Mississippi "would be to take independence out of the Union in preference to the loss of constitutional rights, and consequent degradation and dishonor in it." He said further, "that this is his position, and the position the Democratic party of Mississippi will maintain." They propose to consider the mere election of a Republican Pressident cause for disunion, without waiting for the loss of constitutional rights, &c., which they affect to believe might flow from it. The gentleman from Mississippi is a member of the Democratic party, and has for years been only survivors out of all the passengers of sion, he was one of the famous committee

SINGLETON ] gave notice that— "When you elect a Black Republican-HILE, SEWARD, or CHASE-President of the United States; whenever you undertake to place such a man to preside over the destinies of the South you may expect to see us undivided and indivisible friends, and to see all parties of the South arrayed to RESIST HIS INAUGURATION. "We can never quietly stand by and permit the control of the Army and Navy to go into the hands of a Black Re-publican President."

He further expressed the opinion that unless certain conditions were complied with, and, among others, the Territories of the Union thrown open to slavery, and slavery protected in them by Congress, the historian now lives who would write the sad epitaph of Hium fuit upon the monument of the nation.

The author of this language also voted for all the Democratic candidates for Speak-

Another member from Mississippi [Mr DAVIS] said:

"Gentlemen of the Ropublican party, I warm you. Present your sectional candidate for 1860: elect him as the representative of YOUR SYSTEM OF LAROR; take possession of the Government, as the instrument of your power in this contest of 'irrepressible conflict,' we of the South will tear this Constitution in pieces, and look to our guns for justice and ight against aggression and wrong.'

Thus it is announced that the election of a President representing the free white-labor system of the country will be accepted as, of itself, justifiable cause of dissolution of the Union! Men may be elected and inaugurated as President who represent the negro slave-labor system and will wield all the power of the Government for its expansion. But the Union must be dissolved, and the inauguration of an elected President be prevented who represents, sympathizes with, or would build up the interests of the free white laboring men of the United States! Such is the deliberate announcement made on this floor, by a gentleman most prominent in the councils of the Democratic party. I commend it to north- South. In both sections they are honest. ern working men.

NO DISUNIONISM OUTSIDE OF THE SOUTH-ERN DEMOCRACY. I might multiply extracts, selecting from other speeches in the House, and from those of most prominent Democrats in the Senate. Surely, these will satisfy the most incredulous that a very large proportion of the Democratic leaders of the South are secessionists and disunionists; that these opinious place them beyond the pale of sympathy or confidence from the Union-loving masses; and that they are, of necessity, most unsafe and unfit men to be intrusted with our great national interests. Yet it is most true, that the Democratic organization is in the hands of these gentlemen, and such as they; that the States they represent elect Democratic Presidents, and send the bulk of Democratic members of both branches of Congress; that they control the congressional caucuses and national conventions. and mould the policy of the party; and that a large portion of their power for evil grows out of their position as managers of the Democratic party. Outside of them, there is no disunion sentiment of the least consequence. The disunionist's home is in or near the Democratic party; and he selects that because his brethren are at its head; and because he has found it to be the most cligible workshop he can find, in which to. prepare the weapons he intends to wield

against the Union. Sir, let me not be misunderstood. Ispeak not of the masses of that party North or sincere, and patriotic. Mr. SEWARD has been most severely criticised, and most vehemently denounced, for having said in his Rochester speech, in 1857, that there was in this country an "irrepressible conflict between opposing and enduring forces," by means of which the United States will, sooner or later, become either entirely a slaveholding nation, or entirely a free-labor nation. The conflict he speaks of is one of ideas. That of which the Democratic manifesto speaks is. "the conflict between the two great sections of the Union," which is the interpretation placed by the Democrats on Mr. SEWARD's remark, and at which they have expressed the utmost horror. Thus, the doctrine of the "irrepressible conflict between the two great sections of the Union. held up as a fearful phantom by the De mocracy, has a Democratic paternity : is at least ten years old; and, so long since, received the indorsement of the Democratic caucus candidate for Speaker, who, in turn, has been supported and indorsed by every

It cannot be advocacy of popular sovereignty; for Democratic Conrressmen have indorsed, as fit to be Speaker, several anti-popular sovereignty men. It cannot be reprobation of the "irrepressible conflict;" for an indorser of it, of ten vears' standing, is their chosen candidate. Nor can it be hostility to Americanism; for Americans, and Whigs sympathizing with them, received the support of Democratic Congressmen for the high position of Speaker—the third position in the Government. What a commentary is this last fact upon the high-sounding, comprehensive, and sweeping declarations of the Cincinnati platform, about "religious freedom" and 'accidental birth-place !" Alas, that there should be added to the first using and then betraying protectionists, in 1844, and the free white labor interests in 1856, this last and cruclest proof of political insinceritythe betrayal of the foreigners by birth and the Cacholics in religion who, for safety from apprehended evil, sought security in Democratic ranks, and in return gave victorv to Democratic hosts How sad the spectacle, yet how instructive !

ELASTIC CEMENT ROOFING Tiff undersigned having purchased the right of W. E. Child & Ce's Patent Fire and Water Proof Elastic Cement Roofing, for Adams county, they respectfully announce to the public that they are prepared to contract and put on the above roofing at the shortest notice, in the best manner and on the most reasonable terms.

It is perfectly Fire and Water proof, and in point of durability is equal, if not superior, to any Metallic Roofing. It can be put on over tin, tar, igon, or shingle roofs, however flat or steep they may be, In point of resisting the elements of fire and water, nothing has yet been discovered

equal to the Elastic Cement. Those who have used it, have testified that it is the very perfection of Roofing, and thut there is no further room for improvement.-No one will now think of putting on ship gles when this Coment can be had for much less money and will on wear four shingle roofs .-This Roofing is warranted as represented.

The Elastic Cement is the cheapest and best

protection from decay for wood exposed to the weather or dampness of the ground. It is also the best paint for iron, effectually proventing rust; and wherever applied perfectly excludes dampness.

We have the Cement for sale in quantities to suit all. The Railroad buildings, the Watchouse of John Hoke, and a number of

private buildings in this place, have been cov ered with it, where it can be seen. For further particulars apply to PERRY J. TATE, Gettysburg, April 25.

Dr. M'LANE'S CELEBRATED VERMIFUGE

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to .

LIVER PILLS.

Dr. Chas. M'Lanc's Celebrated " Vermisuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.: THE VERMIFUGE.

For expelling Worms from the

human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.
THE LIVER PILLS, For the cure of LIVER COMPLAINTS,

all Bilious DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of FEVER AND AGUE, preparatory to or after taking Quinine, they almost invariably make

a speedy and permanent cure. As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors. FLEMING BROTHERS,

PITTSBURGH, PA. to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the nigh position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to FLEMING BROS. Pittsburgh, Pa.

P.S. Desions and Physicians ordering from others than Floming Bros., will do well to write their orders distinctly, and take none but Dr. M.Lande, prepared by Fleming Bros. Pittsburgh, Jra. To these wishing to give them a trial, we will forward per mail, post pull, to any part of the United States, one box of Pills for twelve three-cent postage, stamps, or one vial of Vermituge for fourteen three-cent stamps.
